WOMZA TAR REGULATIONS

CIRCULAR 2/2020

STOCKRODS – RULE CLARIFICATION SRT 5.5

Please Be advised that the following rule clarification has been issued in respect of Electronic Fuel Injections and VW engines.

- If you are using an original VW Management, then you are restricted to the MP0 unit only as this is the unit that came out of the 1600 engines. You may however, install an aftermarket chip;
- If you choose to use an aftermarket Management, then you are restricted to units manufactured in South Africa only. All other parts to make this system work are clearly defined under SRT6.5, except for the management “pick-up” which must remain original i.e, if the car did not come out with a 60 -2 system then, you cannot use a 60 -2 system.

Kind regards

MRS ANN BAKKES

WOMZA
