ADDITION OF SRT 12 TO TAR JUNIOR STOCK ROD AND TAR STOCK ROD RULES

Despite the ruling on these two classes stating, **All spare parts fitted to the car shall be used without any alterations and modifications as they come from a road going vehicle.** It is noted, competitors have been making radiators, which is not permitted.

Be advised that SRT 12 has been added to the 2025 TAR JUNIOR STOCK ROD AND TAR STOCK ROD RULES and is effective immediately.

SRT 12. COOLING SYSTEM/RADIATORS

- 12.1 The use of any local commercially available radiator will be permitted;
- 12.2 No purpose-built radiators with aluminium catch/filler tanks will be permitted. All catch/filler tanks to be plastic as per manufacturer specification;
- 12.3 Mounting points of radiator are free;
- 12.4 No purpose-built aluminium or steel fan shrouds will be permitted;
- 12.5 Electric fan/s are free.

Approved by TC Panel: 06 September 2025.
